*APPLIED
ARCHAEOLOGY
PROGRAM*

DEPARTMENT OF COMPARATIVE CULTURAL STUDIES

The Applied Archeology Program is a focused study unit of the Department of Comparative Cultural Studies in the College of Liberal Arts and Social Sciences. This program was designed to prepare students for professional employment related to applied archaeology, in Cultural Resources Management (CRM).

PROGRAM

- Archeological Ethics
- Federal, state, and local preservation legislation
- Project Planning
- Historic Property Evaluation
- Phase I Identification Surveys
- Phase II Evaluation Studies
- Phase III Data Recovery
- Data Analysis
- CRM Report Writing

PROGRAM

For this program, you must complete at least 18 hours of coursework, including one summer field school.

For this focus, coursework must include:

- ANTH 3379 Methods in Historical Archeology, or
- ANTH 3380 Archeological Method and Theory
- ANTH 4385 Applied Archeology
- ANTH 4386 Method and Theory in Field Research
- ANTH 4387 Data Analysis and Report Writing in Archeology
- ANTH 4391 Archeological Fieldwork I
- ANTH 4392 Archeological Fieldwork II

PROGRAM

The goal of the Applied Archeology Program is to engender ethical professionals who are competent in the methods and techniques appropriate for employment in CRM and related positions, and who have the theoretical background necessary for research design and data collection and analysis.
