

Student Name: _____ ID: _____

Liberal Studies BA Practicum Application

Indicate which Practicum option you intend to pursue and provide the details as described below.

Internship Students will need to arrange UH credit for their Internship, either using an established internship course credit in one of their minors (if available and applicable), or completing a one credit hour independent study as an ILAS student as a last resort. Students must intern for a total of 96 hours over the semester. The specific structuring of the hours should be decided between the student and internship provider. For the ILAS Independent Study, a final evaluation from the internship provider and 10-page final report written by the student is required to complete the Independent Study.

Research project Students will pursue either an Honors Thesis (requires additional paperwork and GPA requirements) or an established research capstone course. The research capstone course must be approved by the Liberal Studies Director prior to enrolling.

Study abroad Students must either enroll in a UH faculty-led study abroad course or an affiliated study abroad program course.

Power Writing Students must enroll and pass the Power Writing course.
