

ENGL 3330 Creative Writing Fiction
Chitra Divakaruni

In this course we will focus on closely analyzing published stories, learning from them, and having students create their own stories. We will study techniques and understand craft vocabulary essential to the construction of narratives. We will explore both traditional and contemporary fiction. Students will be given short assignments to allow them to practice particular fictional techniques, and then they will be given the opportunity to write their own stories and have them analyzed in workshop.
