4351 Poetry  
Professor Hoagland  
Advanced Undergraduate Poetry Workshop

This intensive class in poetry craft and reading requires you to buy ten books of contemporary poetry and criticism. In each class time, we will spend the first half of our time discussing particular poems, issues of craft and vision. The second half of class will focus on student writing. Some critical writing will be a significant part of the course. Fun, fun fun, but also serious --for the committed poetry student.
