

Physical Recovery Emergency Planning Subcommittee Meeting Program Update April 16, 2013

University Wide Campus Physical Recovery Emergency Planning Committee (PREP) was established with first year goals and mission:

PHYSICAL RECOVERY EMERGENCY PLANNING (PREP)

The Physical Recovery Emergency Planning subcommittee supports university emergency planning through the utilization of an aligned and integrated Physical Response Model. The Physical Recovery Team is charged with the coordination of physical infrastructure response and recovery efforts, to partner with the university and community to effectively and efficiently prepare for, prevent, respond to, and recover from any and all emergency situations impacting the campus.

Program Website rolled out: <http://www.uh.edu/plantops/about-us/committees/PREP/index.php>

Finalized the following documents & procedures: First year program goals - <http://www.uh.edu/plantops/about-us/committees/PREP/FINAL%20Physical%20Response%20Statement%20and%20First%20Year%20Goals.pdf>

Physical Response Coordination Model - <http://www.uh.edu/plantops/about-us/committees/PREP/Integrated%20physical%20response%20summary%20model.pdf>

1. **The Zone Response Map** was updated and finalized by the team and can now be found at the following link (<http://www.uh.edu/plantops/about-us/committees/PREP/FINAL%20Zone%20Map%20with%20Emergency%20Assignments.pdf>)
2. **The Pre-storm checklist** was reviewed and finalized – this list can now be found at <http://www.uh.edu/plantops/about-us/committees/PREP/FINAL-Pre-Storm-Checklist-2012-2013.pdf>
3. **Reviewed final Emergency Building Recovery Priority and Power Restoration Schedule** at this can now be found at the following link (<http://www.uh.edu/plantops/about-us/committees/PREP/UHBUILDINGHURRICANE%209-10-12.pdf>).
4. **Updated and finalized Emergency Reporting Form:** <http://www.uh.edu/plantops/about-us/committees/PREP/index.php>

5. Developed **PREP Listserv** for easier response communications: plantops-prep@listserv.uh.edu
6. Developed and begin **PREP SharePoint site** for individual incident management: <https://share.uh.edu/plantops/PREP/SitePages/Home.aspx>

In Progress:

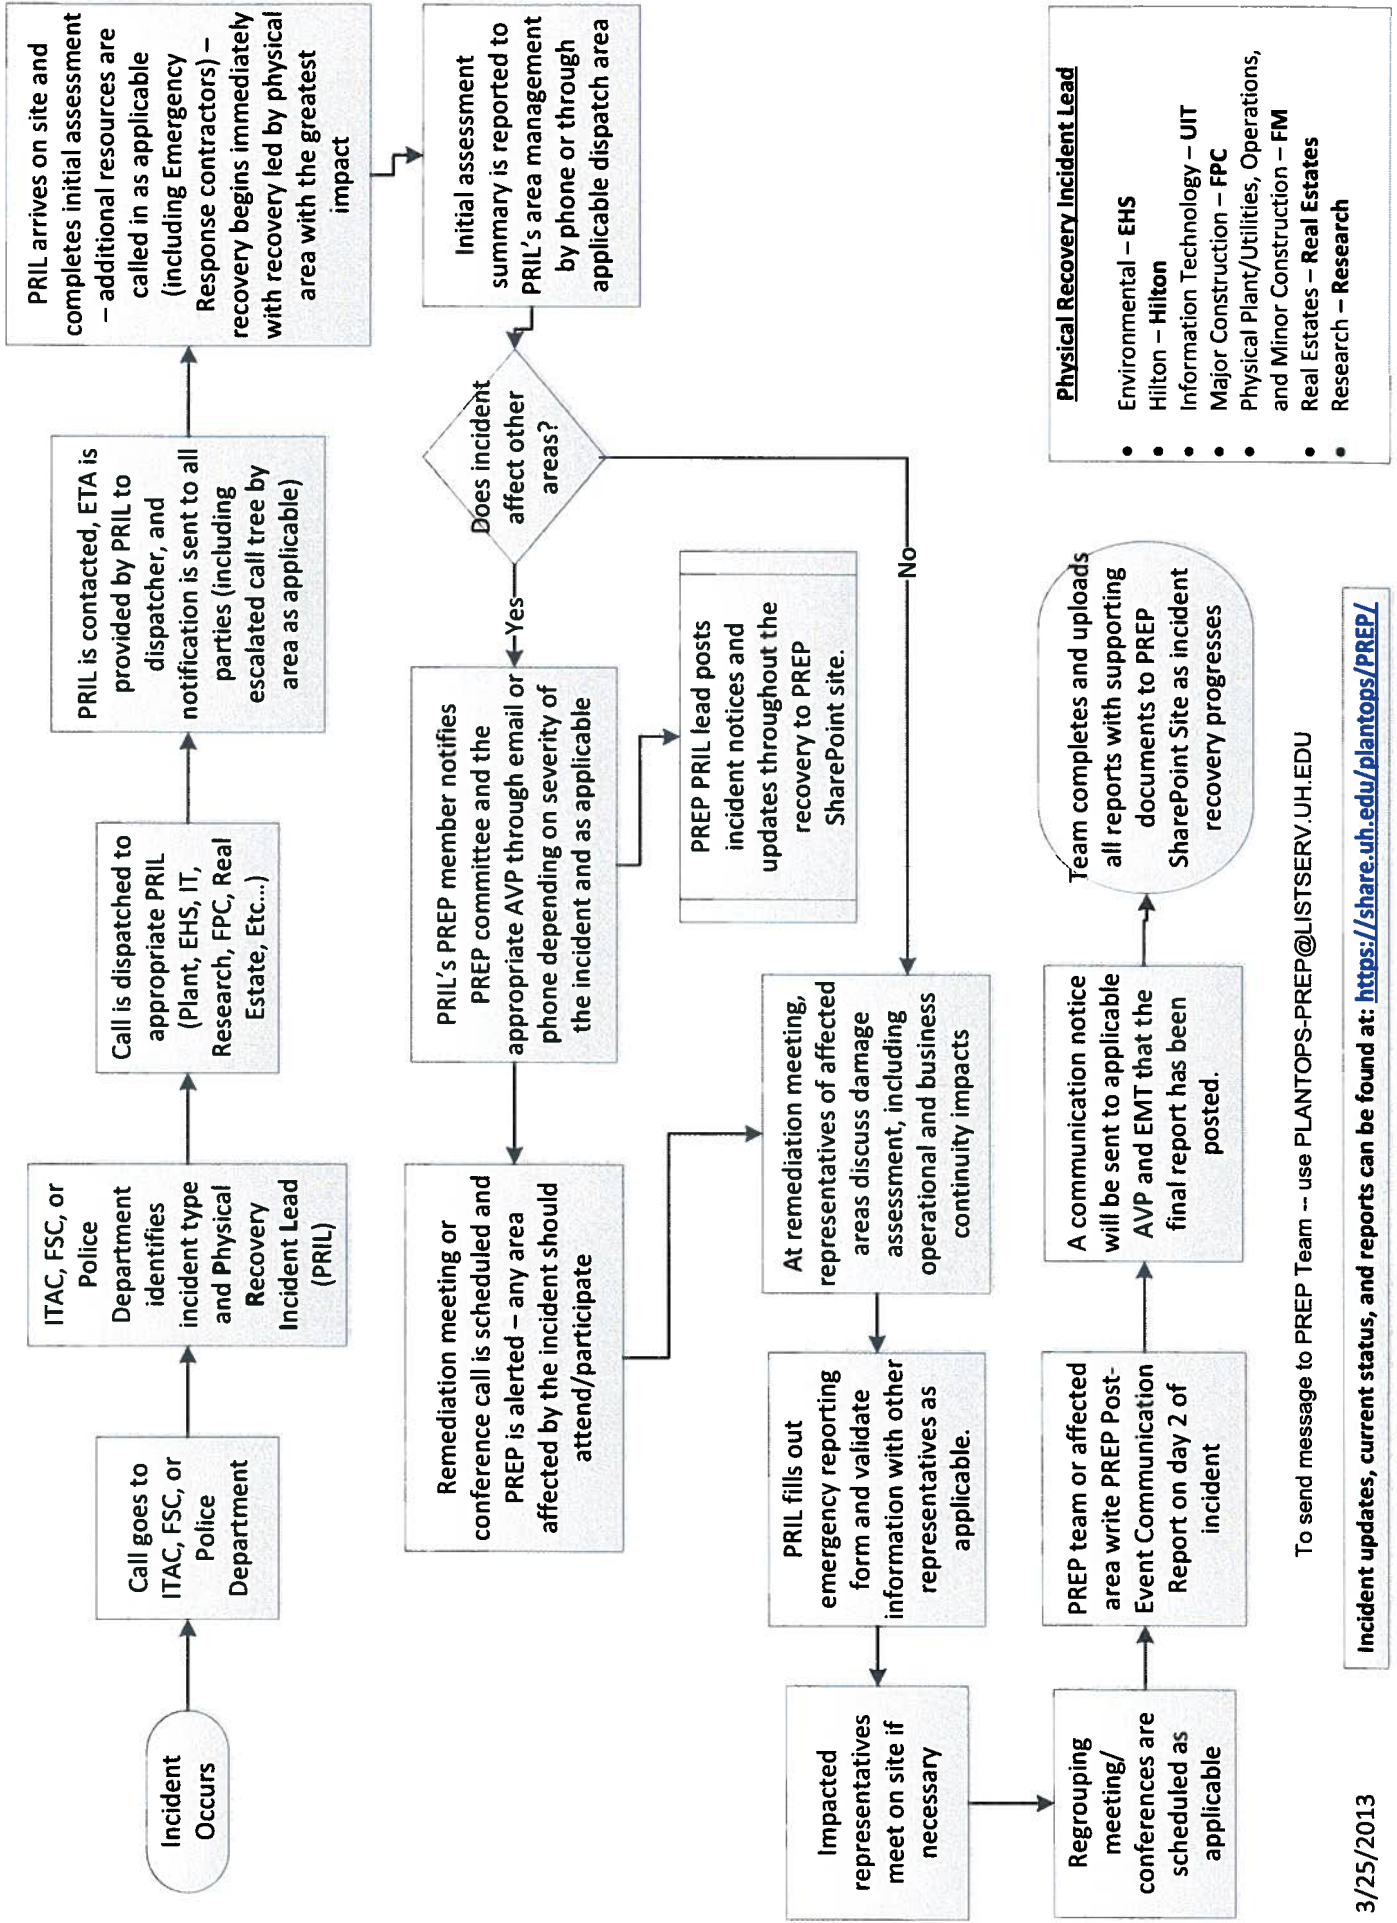

1. **Emergency Services RFP** – RFP has been posted and the selection is underway. The next contract term will be bid for 3 years with two (1) year extensions.
2. **Hurricane Season Preparation.** A test Emergency Deployment Readiness Exercise is scheduled for Monday May 6th to test the Zone model with collaborative teams as well as ensure proper pre-hurricane readiness by utilizing the pre-storm checklist in this mock drill. It is the intent of the committee to correct any deficiencies found in this exercise prior to May end.
3. **Building Coordinator and Secondary Updates are occurring** – with tertiary trees to be updated by facility no later than May 17, 2013. The next Building Coordinator quarterly meeting will be dedicated to Emergency Planning and safety liaison roles.
4. **Red Book Update** – Seasonal workbook will be published on the SharePoint site and provided in hard copy for Facilities Management – all areas should also print these books off when they are updated to ensure physical access to the critical information in the event the network is down. Target update is May 17, 2013:
<https://share.uh.edu/plantops/PREP/SitePages/Home.aspx?RootFolder=%2Fplantops%2FPREP%2FShared%20Documents%2FRed%20Book&FolderCTID=0x012000601552F9B047EE4D91A1B0EAF0CF559F&View={1F42C281-366C-43EF-8840-674012DCEA32}>
5. Individual Incident Response Process, procedures and communication flow – a draft process has been developed to ensure a collaborative or single area common response process that is utilized across and by service areas and once approved and implement will accomplish to the following:
 - ✓ Timely and coordinated response
 - ✓ More accurate communications during response, recovery and post event
 - ✓ Centralized dataset of events and responses, including lessons learned and damages service area and in aggregate.

- ✓ Collaborative and team based response model
- ✓ Proactive planning & engagement across university areas

Once Approved by EMT, this process will be formally rolled out and teams trained (estimated timeline May 2013)

To send message to PREP Team -- use PLANTOPS-PREP@LISTSERV.UH.EDU

Incident updates, current status, and reports can be found at: <https://share.uh.edu/plantops/PREP/>

Physical Recovery Emergency Planning (PREP) POST EVENT RESPONSE PROCESS

Purpose Statement:

Post event physical recovery emergency response will involve assessing the campus built-environment after an incident has occurred. Assessment should include any follow-up actions required to address losses and risk mitigation resulting from events.

Resources:

A Physical Recovery Emergency Planning (PREP) listserv (PLANTOPS-PREP@LISTSERV.UH.EDU) and SharePoint site (<https://share.uh.edu/plantops/PREP/SitePages/Home.aspx>) have been created to facilitate team communications and to house all PREP Emergency Reports and post event tracking data. The SharePoint site will be accessible to key university stakeholders as well as PREP team members for event notices and updates as they are posted. This will reduce unnecessary paperwork, redundancy, and confusion and ensure that real-time information is available when needed. For responses that require collaboration, the command center for physical recovery emergency efforts will be located in GSB122C Conference Room. In the event that the incident has impacted campus network access, updates will be posted in this location. For individual responses where network connectivity is not available, the areas will post in their identified command center locations as noted in their business continuity plans.

Process:

Updated and real time notices are posted throughout the process as they are made available by the PREP Physical Response Incident Lead (PRIL). The PRIL's physical recovery response report should provide the following information: 1) what happened; 2) when the event happened; 3) where the event happened; 4) who did the event happen to; 5) details as to how the event happened; and 6) why the event happened. To report this information, it will be important to utilize the Emergency Reporting Form and the Post-Event Communications Report Form. Physical area owners – i.e. areas with majority involvement in the incident – are responsible for response coordination, notices, emergency form completion, recovery management and post event reporting. The forms may be accessed at the PREP website, <http://uh.edu/plantops/about-us/committees/PREP/index.php>. The correct chronology for a post event physical response is provided below:

Incident Occurs:

1. Incident is reported to Information Technology Availability Center (ITAC), Facilities Service Center (FSC) or Police Department (PD).
2. ITAC, FSC, or PD identifies 1) the incident type and 2) the Physical Recovery Incident Lead (PRIL).
3. Call is dispatched to appropriate PRIL (Plant, Environmental Health and Safety, Fire Marshal, Information Technology, Police Department, Research, Facilities Planning and Construction,

Physical Recovery Emergency Planning (PREP) POST EVENT RESPONSE PROCESS

Real Estate, etc.) Depending on the nature and severity of the incident, the UH Public Safety Emergency Management Bureau will also be contacted.

4. PRIL will notify dispatch of estimated time of arrival, if possible -- notification is sent to all impacted parties (including the escalated facilities emergency call tree as applicable).
5. PRIL arrives on site and completes an initial assessment.
6. Additional resources will be called in as needed, including emergency response contractor(s).
7. Recovery begins immediately led by the physical area(s) with the greatest impact.
8. Initial assessment summary will be reported to PRIL's area management by phone or applicable dispatch area.

When incident DOES affect / impact other areas -

9. PRIL's PREP member notifies the PREP committee and appropriate AVP via email or phone, depending on incident severity, and as applicable.
10. PREP PRIL posts incident notices and updates throughout the recovery to the PREP SharePoint site -- (<https://share.uh.edu/plantops/PREP/SitePages/Home.aspx>).
11. A remediation meeting or conference call is scheduled -- PREP is alerted -- representatives from any area affected by the incident should attend.
12. Representatives of affected areas will discuss damage assessment, impact to operational and business continuity, and identify next steps.
13. PRIL completes emergency reporting form located on the PREP SharePoint site.
14. Representatives from impacted areas will meet on the site and regrouping meetings/conferences are scheduled as applicable.
15. PRIL will post continuous updates throughout the process as they are available. Information shall be validated and then organized and reported (and named in the following sequence) :
 - a. Date
 - b. Building Number
 - c. Building Name
 - d. Incident Name
 - e. Incident description.
16. PREP team or affected area completes post-event communication report on day 2. Form located at PREP SharePoint site (<https://share.uh.edu/plantops/PREP/SitePages/Home.aspx>).
17. A communication notice will be sent to applicable AVP that the final report has been posted. Based on the severity of the incident, it may be necessary to send a communication notice to the Emergency Management Team (EMT) that the final report has been posted.

Physical Recovery Emergency Planning (PREP) POST EVENT RESPONSE PROCESS

18. Team completes and uploads all reports and supporting document to the PREP SharePoint site as part of the incident recovery progress.

When incident DOES NOT affect / impact other areas –

(Skip steps #9, #10, and #11 above)

12. Representatives of affected areas will discuss damage assessment, impact to operational and business continuity, and identify next steps.
13. PRIL completes emergency reporting form located on the PREP SharePoint site.
14. Representatives from impacted areas will meet on the site and regrouping meetings/conferences are scheduled as applicable.
15. PRIL will post continuous updates throughout the process as they are available. Information shall be validated and then organized and reported (and names in the following sequence) :
 - f. Date
 - g. Building Number
 - h. Building Name
 - i. Incident Name
 - j. Incident description.
16. PREP team or affected area completes post-event communication report on day 2. Form located at PREP SharePoint site (<https://share.uh.edu/plantops/PREP/SitePages/Home.aspx>).
17. A communication notice will be sent to applicable AVP that the final report has been posted. Based on the severity of the incident, it may be necessary to send a communication notice to the EMT that a final report has been posted.
18. Team completes and uploads all reports and supporting document to the PREP SharePoint site as part of the incident recovery progress.

Major Events

The physical recovery emergency planning and response process will be the same as noted in this document for minor and major events. However, for major events where the university's EOC has been activated, the PREP team members will filter their unified reports and updates through the EOC as required by the NIMS process and will not use the SharePoint site for major response communications.

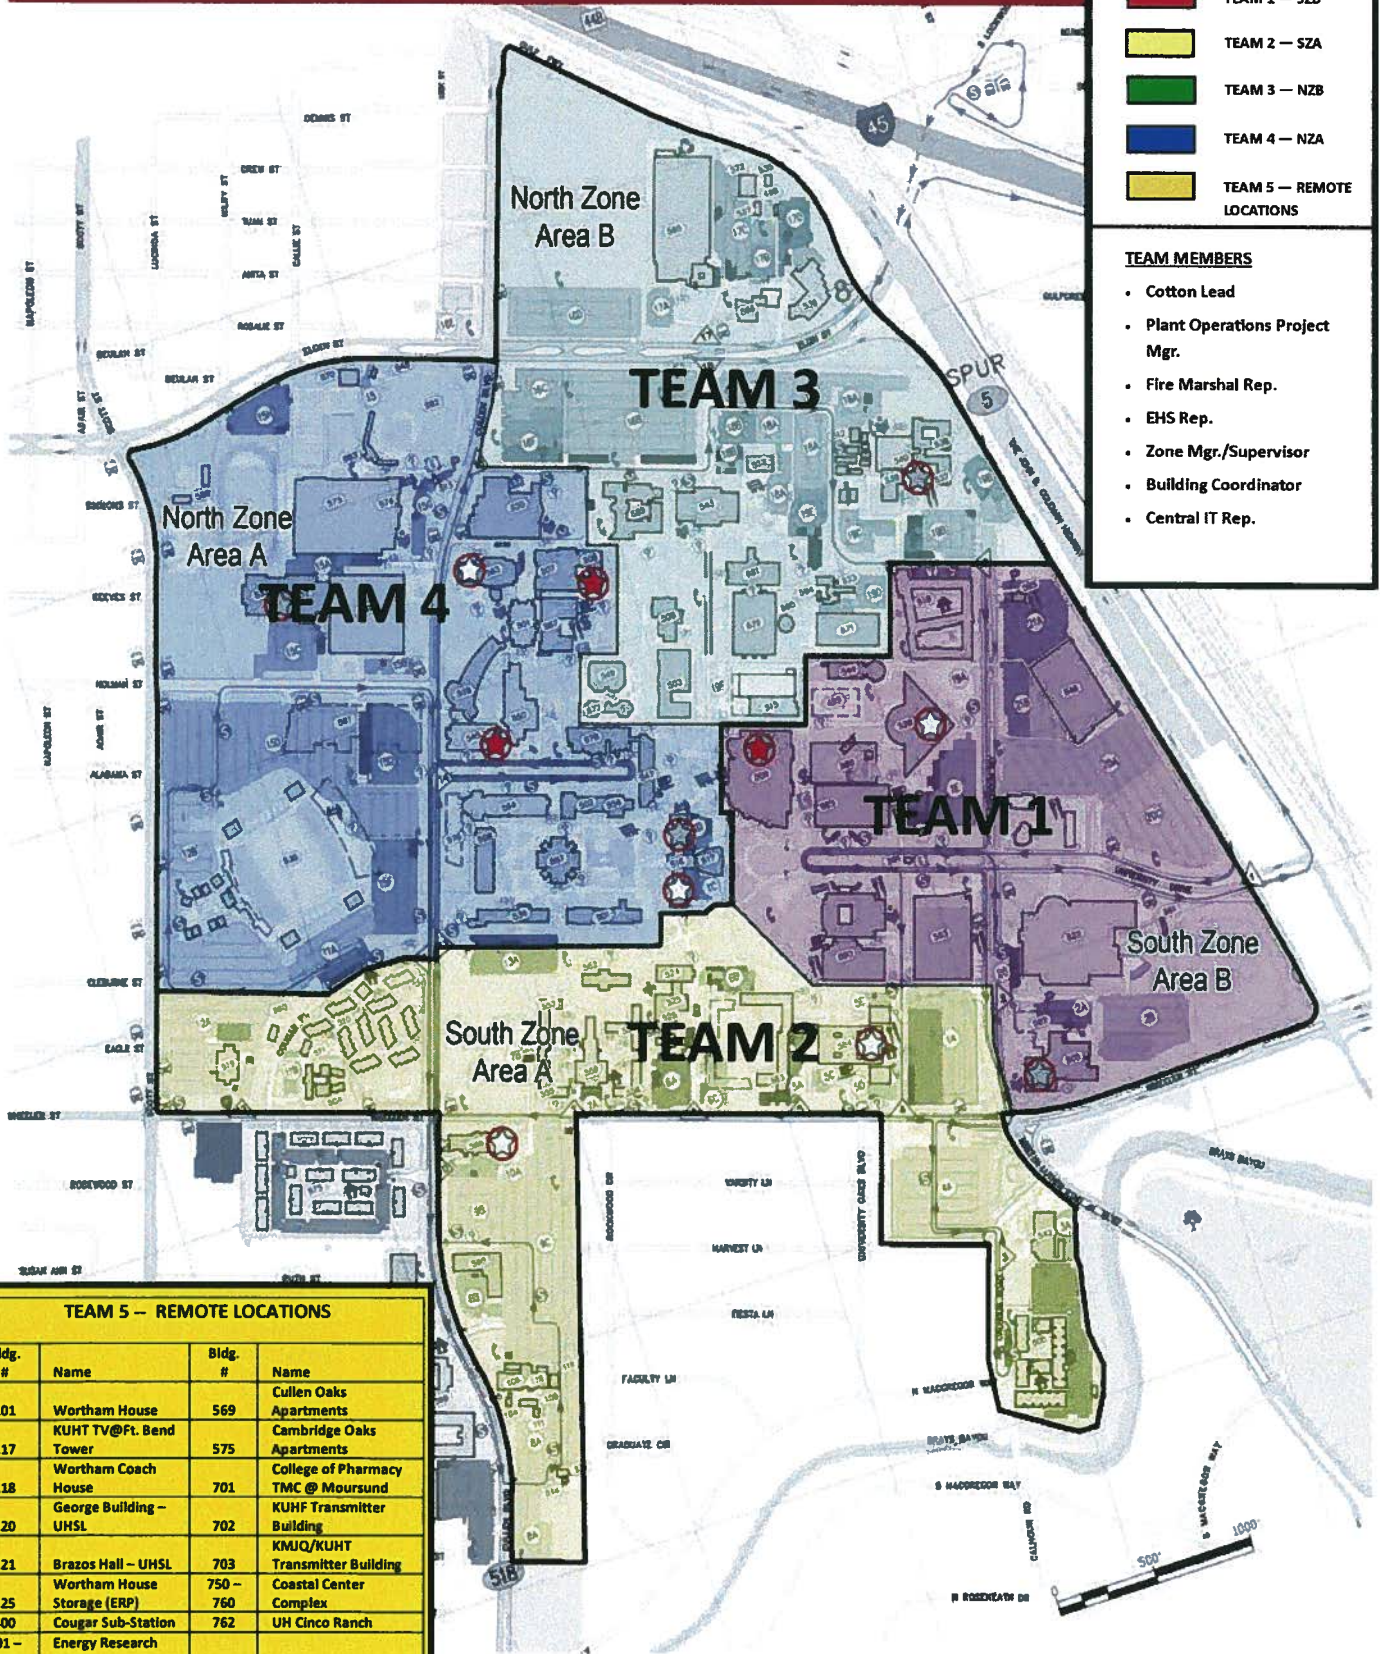

Facilities Operations & Maintenance Zone and Area Map

EMERGENCY RESPONSE TEAM ASSIGNMENTS 2012

- TEAM 1 — SZB
- TEAM 2 — SZA
- TEAM 3 — NZB
- TEAM 4 — NZA
- TEAM 5 — REMOTE LOCATIONS

TEAM MEMBERS

- Cotton Lead
- Plant Operations Project Mgr.
- Fire Marshal Rep.
- EHS Rep.
- Zone Mgr./Supervisor
- Building Coordinator
- Central IT Rep.

TEAM 5 — REMOTE LOCATIONS

Bldg. #	Name	Bldg. #	Name
101	Worham House	569	Cullen Oaks Apartments
117	KUHT TV@Ft. Bend Tower	575	Cambridge Oaks Apartments
118	Worham Coach House	701	College of Pharmacy TMC @ Moursund
120	George Building - UHSL	702	KUHF Transmitter Building

Notes:

All life safety events will be given the first priority regardless of the location and building priority listing.

Cougar substation is responsible for serving electrical power to majority of the campus and therefore listed as a priority building
