UNIVERSITY of HOUSTON

*Graduate and
Professional Student
Resource Guide*

Graduate and Professional Studies at the University of Houston

This quick resource guide has been compiled as a source of information for all graduate and professional students including those attending UH for the first time, those who have attended undergraduate studies on this campus, and those who are already well on their way to successful completion of their advanced studies.

The Graduate & Professional Studies Catalog is available online at http://www.uh.edu/grad_catalog. Because some academic requirements and procedures vary from college to college, you should be in continual contact with your department for information about specific college and departmental policies, procedures, regulations, and deadlines. As a graduate or a professional student, you should take the initiative in asking questions that promote your understanding of the academic and financial requirements of the University as well as those of your specific graduate program.

We at the University of Houston value and respect our graduate and professional students as persons of merit and as junior colleagues. Likewise, you should conduct yourself, in all educational activities, in a manner befitting an academic colleague so that your behavior is a credit to yourself, your academic unit, and the University.

We wish you much success as you embark on this most advanced, substantial, and vibrant period in your educational life.

Sincerely,

*Dr. Marco J. Mariotto, Dean
Graduate & Professional Studies*
