

Behavioral Health Management, Training & Staffing (BHMTS), a mental health case management and counseling agency, will start interviewing for the positions of In-Home counselors, Case Managers, Clinicians and Supervisors. The positions are designed to assist children, adolescents, parents/caregivers and adults with skills to help keep the individual self-sufficient in their natural home environment. Some adults or families may be homeless, need food, be addicted to various substances, limited in education or caring for sick relatives.

We would like very much to start the process of getting to know you and your career goals and objectives. We are located in the Richmond Metropolitan area but the opportunities will exist throughout the entire state of Virginia and serve a multicultural array of clients.

Please email and ask about our free training program for Qualified Mental Health Professionals in Virginia. Call or email us with your interest. Ask for Travis Crocker,

(SCC ID #S368711-0)
