Job Title	Integrated Health Manager
Employer/ Agency	Family Health Center
Job Description	Working within a transdisciplinary primary care team, provide integrated behavioral health care and advanced care management for patients with chronic conditions. As a highly valued member of the core team, support and closely coordinate mental health care with the patient's primary care provider; screen, assess and offer focused treatment within the primary care setting for patients with common mental health and substance abuse disorders. Deliver time-limited, target-based treatments such as brief cognitive-behavioral therapy and solution-focused therapy. Common interventions include behavioral activation, problem-solving therapy, stimulus control therapy, sleep hygiene, acceptance-based strategies, psychoeducation, relaxation training, motivational interviewing, and parent training. Advanced care management tasks include previsit planning, patient education, registry monitoring and patient self-management training. Additionally, provide care coordination services to address short- and long-term medical and behavioral health treatment goals. Communicate with physician and care team members about relevant patient needs or changes. Identify cost-effective protocols and care paths for improving population health and participate in developing guidelines for care.
