What are non-substantive edits to the catalog?
Non-substantive edits to the academic catalogs consists of changes to descriptive language, contact information, etc.; these are not conditional edits to policies or curriculum (courses, degrees, etc.) that must be approved through faculty committee review, the Graduate and Professional Studies Committee (GPSC), and beyond.

What will the instructions in this document help me do?
This document is designed to help designate content owners begin the non-substantive edits process to their section of the academic catalog by providing step-by-step instructions for creating a Word document with tracked changes and submitting it as an attachment using a Curriculog proposal. The step summary for this process is below, and step-by-step instructions are available in the subsequent pages of this document. Once content owner’s college Associate Dean approves edits, by the January 31 deadline, catalog editors will begin working on edits and contact content owners with next steps.

**STEP SUMMARY**
1. **CREATE THE CATALOG EDITS WORD DOCUMENT WITH TRACK CHANGES FORMATTING**
2. **SUBMIT CATALOG EDITS VIA CURRICULOG**
   A. **ACCESS CURRICULOG**
   B. **START PROPOSAL**
   C. **ATTACH DOCUMENT TO PROPOSAL**
   D. **LAUNCH PROPOSAL**
   E. **APPROVE PROPOSAL**

How will these non-substantive changes be combined with the curricular and policy changes submitted to the GPSC and entered into the final catalog?
Once catalog editors confirm the non-substantive edits from colleges, departments, and administrative offices, and final approval is received for curricular and policy changes submitted to the GPSC, catalog editors will merge these edits to the academic catalogs. Once merged, content owners will be able to preview changes, and share with any other shareholders within their unit, before final catalog publication. The goal is to have all merged prior to March 22, 2019, the final draft approved by content areas by April 5, and the 2019-2020 academic catalogs published by the time enrollment and new student orientations begin in early April.

**If you have any questions regarding whether or not a particular edit is substantive or non-substantive, please contact Tashemia Jones in the UH Graduate school at tvjones@uh.edu**
1. **CREATE THE CATALOG EDITS WORD DOCUMENT WITH TRACK CHANGES FORMATTING**

   Beginning with the appropriate template (see bullet “B” for links), insert the copied text from your catalog page and provide a markup of the changes to the text using the Word “Track Changes” feature (top Ribbon > Review tab > Tracking section > Track Changes drop-down menu > select Track Changes). This document will enable the catalog editors to quickly and easily identify the changes and electronically paste the revised text into the catalog, ensuring that what is requested is what is represented in the catalog.

   **A.** Open your web browser and navigate to the UH Graduate and Professional Studies Academic Catalog 2018-2019.

      I. [www.uh.edu/graduate-catalog](http://www.uh.edu/graduate-catalog)

   **B.** Open the appropriate template

      I. Program (degree plan or certificate) will use the Degree Program and Certificate Page Template

      II. All other catalog pages will use the Non-Substantive Catalog Edits Template

   **C.** Once both the catalog web pages and template are open, fill in the template with the following:

      I. Provide the name of the content area in the Title of Main Page field

      II. Provide the URL of the catalog page by copying and pasting it in the Page URL field

      III. Provide the catalog text by copying and pasting the text of the catalog page

   **D.** Repeat the steps in section “c” for any additional catalog pages that contain your content area’s information (if your content area’s catalog page has links to college-related information, degree programs, etc., these would be considered additional catalog pages that you are also responsible for reviewing).

**EXAMPLE:**

For edits to the College of Business section of the catalog, this page would be the URL of the main page:
[http://publications.uh.edu/content.php?catoid=30&navoid=11429](http://publications.uh.edu/content.php?catoid=30&navoid=11429), and subsequent links on the main page (to Faculty, Scholarships, etc.), would be additional documents and separate proposals.
