

# TIPS TO PROTECT SCOOTERS, CARTS, AND MOTORIZED BICYCLES ON CAMPUS

Many departments and campus community members use carts, scooters, and motorized bicycles to navigate the UH campus. Please see the helpful tips from the University of Houston Police Department for protecting and securing these vehicles:

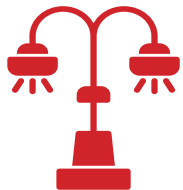

Register your vehicle with the appropriate campus departments. Carts should be registered with the **UH Automotive and Fleet Management** Department. Scooters and **bicycles should be registered** using your parking account through Parking and Transportation Services.

Document your serial numbers and/or owner-applied numbers and have them stored in a safe place. Photographs of your vehicle may be beneficial.

Secure the vehicle. Make sure that scooters, carts, and bicycles are locked and secured after you park them.

Park scooters, motorized bicycles, and carts in a well-lit area.
