Cougar Communication Groups offer speech and language therapy for pre-school and school aged children. Our progressive program focuses on providing evidence-based and innovative therapy while acting as a training program for graduate clinicians in Speech-Language Pathology. Our program features:

- Graduate Student Clinicians
- Supervision by Certified Speech-Language Pathologists
- Frequent Communication & Feedback
- Parent Observation
- Small Ratios of 2:1 (clients to clinician)
- Groups focusing on goals for each client's needs
- Home Programs to carry over therapy progress

Our speech and language groups build specific speech and language skills in an interactive environment with children who have similar goals.

Groups meet two times weekly for 2.5 hours each session.

For Children 18 months to 4 years : 9:30 am-12 noon

Monday/Wednesday or Tuesday/Thursday

For Children 5 years to 10 years : 1 pm -3:30 pm

Monday/Wednesday or Tuesday/Thursday

Equitable Treatment Services at the USLHC are available to all people, regardless of race, creed, gender or national origin.
