In order to review applications, the MMI Teaching Prize jury requests permission to access any Blackboard/Teams/Flipgrid/or other platforms related to your course. Access information should be included in your letter of application, and submission to this competition authorizes college web services to provide jury access to your course content. (initial)

In order to celebrate our applicants and to share their innovations and achievements more widely, MMI may use images, excerpts, or other selections from materials submitted to the competition. If used, these selections will only be used for the purposes of sharing teaching techniques and highlighting applications and competition winners, and will not include student work (unless separately requested). Any MMI use of selected material may be public for one year from the date of the competition deadline, but all ownership of instructor-created course materials remains with the instructor.

I grant MMI permission to use limited images, excerpts and other selections from my application, for promotional purposes only. (initial)
