The University of Houston was established as the Houston Junior College in 1927. As the college grew, it prospered and officially became the four-year University of Houston in 1934. Two years later, the college attained land for a permanent campus, and in 1939 it constructed its first building, the Roy G. Cullen Building. The University became a state institution in 1963.

The University includes 15 academic colleges, one school and the multidisciplinary Honors College that teach a wide array of subjects – from math, arts and engineering to law, pharmacy and business. What started as a campus with a single building has grown into a world-class university, offering more than 270 undergraduate and graduate programs to more than 47,000 students annually.

UH is a Carnegie-designated Tier One public research university, and its public service and community activities, such as cultural offerings, clinical services, policy studies and small business initiatives, serve a diverse metropolitan population. Likewise, the resources of the Gulf Coast Region complement and enrich the University’s academic programs, providing students with professional expertise, practical experience and career opportunities.

In keeping with the University’s commitment to excellence, UH raised the benchmark of academic achievement when Phi Beta Kappa, the nation’s oldest and most prestigious academic honor society, awarded UH the approval to start a chapter in 2015. This designation welcomed UH to an elite group of the nation’s most esteemed colleges and universities.
Commencement Traditions

Academic costumes of today have a history of nearly eight centuries. In medieval Europe, all townspeople wore long flowing robes and gowns. The materials and colors were governed by royal decree. Gradually, distinctive gowns were developed for the various professions, trades and guilds. Scholars wore robes and hoods to protect their shaved heads. Later, skullcaps were worn on the head, and the hoods became a cape that could be pulled over the head during unpleasant weather.

As additional universities were founded, distinctive forms of the gown and hood were adapted by their faculties for bachelor’s (apprentices of the arts), master’s (teachers) and doctoral (teachers who had completed postgraduate studies). When caps and hats came into fashion in the 15th century, the hoods became ornamental, draped over the shoulders and down the back.

The academic hat was first worn as a symbol of the master’s degree and existed in various forms. The mortarboard style comes to us from Oxford University. When academic costumes came to America in 1754, styles were quite varied. In Europe, they still are; however, in our country, usage has been standardized by the Intercollegiate Code of Academic Costume.

The Seal
Throughout history, seals have been used to authenticate official documents. The University of Houston and UH System seals both bear the Official Seal of Arms of General Sam Houston, as handed down to him from his noble ancestors. It includes the escutcheon in the center of the seal — consisting of checkered chevrons denoting nobility — and three martlets, gentle lowland birds that symbolize peace and deliverance. A winged hourglass is placed above the shield. Surmounting this is the motto “In Tempore,” meaning “In Time.” The greyhounds indicate speed of giving aid. The UH seal was first adopted in 1938 as the present campus was established. Although the look of the seal has evolved over the years, the first version was etched into the floor of the Roy G. Cullen Building.

University Mace
The University Mace, which is carried in academic processions, is a staff symbolizing the University’s authority and unity. The tradition of the academic mace began in the late 14th century when two ancient instruments, the royal scepter and the battle mace, were combined to form a university president’s symbol of authority.

The Alma Mater

All hail to thee,
Our Houston University.
Our hearts fill with gladness
When we think of thee.
We’ll always adore thee
Dear old varsity.
And to thy memory cherished,
True we’ll ever be.

Message from the Dean

December 17, 2021

We think of commencement as an end, a finish line, yet the word proclaims that this moment is a new beginning, that “today is the first day of the rest of your life” as the old posters and new memes remind us. Our graduation ritual of “walking” has been revived, despite the challenges familiar to us all, thanks to a promise and a commitment from Chancellor Khator. Walking is treasured by students and their families because it conveys in motion, symbol, and photograph the fact that you are literally taking next steps on a new journey into a new world.

Then-Senator Barack Obama, however, in a definitive speech entitled “A More Perfect Union,” quoted this famous line from a William Faulkner novel: “The past is never dead. It’s not even past.” And a great teacher and scholar, R.J. Kaufmann, had this insight about what we read, say, write, do, and experience: “Nothing is ever lost.” So, to understand a person in midlife, you need to know what they were doing between the ages of 18 and 24 and what was going on in the world during those years. To anticipate the person you will become, you might well reflect on what you have been doing over the last four or five years, inside and outside the classroom, and what has been going on in the world.

We are confident that what you have been reading, writing, and doing during your undergraduate years, the tonic tasks that you have undertaken, will not be lost. Breaking through to that hard-won epiphany in a Human Sit paper; taking your first oral exam and killing it (or vowing to kill it next time!); presenting your poster, virtually or in person, at Undergraduate Research Day; making the transition from mentee in year one to mentor in year three; developing a partnership with a middle school whose students could really use some Honors College tutors; developing cultural competencies and medical skills so you can responsibly serve a refugee community in Jordan; representing UH in a Model Arab League simulation in Washington or Cairo; becoming certified as a Community Health Worker in order to assist Third Ward families; completing a competitive application for a major award, and then interviewing for and perhaps winning a Fulbright, a Goldwater, or a Critical Language Scholarship. Despite the many challenges—or perhaps because of them—your generation has the opportunity to become a great generation, perhaps the greatest generation of the 21st century.

Our hope is that the past four or five years have prepared you for deep satisfactions in your professional lives, and beyond your professional lives. This week you are commencing, you are walking on in your journey. We are proud of you, and we hope that you will not be a stranger to joy or a stranger to us in the years to come.

Be safe and be well,

Bill Monroe
