

Literacy Fun

1. We know that the questions that the teacher asks the children during a lesson can lead to greater learning opportunities, what other questions might the teacher have asked the children while they were working? What did you think of the teachers questioning strategies? Can you plan ahead for this? How?
2. What centers could be used as an extension of this lesson? How would you set them up so that the children can work independently in them? How will you assess them?
3. List and describe characteristics that make this teacher effective in teaching this lesson. Identify the techniques and write a brief paragraph about what the teacher did to make the lesson work?
