

## Math Lesson

1. What were some of the techniques that this teacher utilized to make this lesson work? Identify the techniques and write a brief paragraph about what the teacher did to make the lesson work?
2. This teacher had six children sitting in a circle for this lesson, what guidance techniques were utilized that allowed her to keep the lesson flowing?
3. Reflect on your own experience of teaching a lesson to a small group. After watching this lesson what might you have done differently? Why?
4. When observing the children in the group, from the teacher's perspective, what did you learn about them individually? How will you use that information?
