

PPCD Rhyming Words

1. What is the teacher doing that would discourage or distract the children from being involved in the lesson? How could this teacher have been more effective in her teaching style? What could she have had the other adults in the room do to facilitate the children's learning?
2. When you are working with special populations what additional factors do you need to consider in planning a lesson? Think about curriculum planning, classroom management, and assessment.
3. After observing this lesson, using what you know about arranging the environment to facilitate a young child's learning and developmentally appropriate practices and environments, what would be your next step in teaching this concept to children?
