

RESOLUTION PASSED BY THE FACULTY SENATE

April 16, 1975

BE IT RESOLVED, the Faculty Senate considers the University Orientation Program an important aspect of the academic life of the University, and is concerned that it suffers defects of organization and program. The Senate urges the Vice President for Student Affairs to enlist the aid of the Senate in appointing a committee, with a preponderance of faculty members, to reorganize the program so that it may realize its full promise.
