

**FACULTY SENATE RESOLUTION
(December 11, 1991)**

Pending detailed consideration by the Campus Life Committee next year, the following Executive Committee resolution on recycling was passed by unanimous vote:

The Faculty Senate strongly supports efforts to establish a viable and effective reuse and recycling program at the University of Houston. We specifically applaud the general proposal by Team Earth to implement a comprehensive, campus-wide, and student-involved recycling program, and pledge to lend our efforts and enlist those of our colleagues in making such a program a success.
