

## ***Faculty Senate Resolution regarding January 6, 2021***

*On January 6, 2021, a violent mob stormed the Capitol building in an attempt to overturn the results of the presidential election. The use of violence to undermine our republican institutions and disrupt the peaceful transfer of power was an attack on our democratic system of government. The Faculty Senate of the University of Houston strongly condemns this violent insurrection. The preservation of democracy is a matter that affects its members directly as citizens and educators. The hard work of finding common ground and unifying the country lies ahead.*
