

NSSE 2014 High-Impact Practices

Participation by Student Characteristics University of Houston

Participation in High-Impact Practices by Student Characteristics

The table below displays the percentage of your students who participated in each HIP by selected student characteristics. Examining participation rates for different groups offers insight into how engagement varies within your student population.

Sex		First-year				Senior					
Female 17 43 4 6 6 33 54 25 58 10 47 Male 18 48 6 33 54 25 58 10 47 American Indian or Alaska Native		Learning Community	Service- Learning	Research with Faculty	Learning Community	Service- Learning	Research with Faculty	Internship or Field Experience	Study Abroad	Culminating Senior Experience

Notes: Percentage of students who responded "Done or in progress" except for service-learning which is the percentage who responded that at least "Some" courses included a community-based

project. Percentages are not reported (—) for row categories containing fewer than 10 students. Results are unweighted, except for overall percentages which are weighted by sex and enrollment status.

- a. Institution-reported variable.
- b. Neither parent holds a bachelor's degree.
- c. These are NSSE's default related-major categories, based on first major if more than one was reported. Institution-customized major categories will be included on the Major Field Report,
