Describe how you feel about having completed your virtual internship?:
"Sad that it's ending because I really enjoyed my internship but motivated because I accomplished a lot of things that I know will help me in the long run. I loved learning new skills throughout my internship. It showed me that I also want to do something within the business/marketing area. I learned that I shouldn't limit myself to just one profession and that I'm able to open my mind in doing various things."
