

Advances in Texas Air Quality: A Tribute to Dr. Daewon Byun

Overview: This conference will focus on the advances in our understanding of air quality research over the past 5 to 10 years. Presentations will discuss both modeling and measurement results, as well as future air quality campaigns and satellite instruments. Some speakers will focus on the improvement in Houston air quality over the past 6 years and discuss several reasons for the cleaner air.

Speakers will include:

David Allen, UT-Austin	John Nielsen-Gammon, Texas A&M
Bruce Dodderidge, NASA Langley	Jay Olaguer, HARC
Mark Estes, TCEQ	Joseph Pinto, EPA
Rob Griffin, Rice	Bernhard Rappenglueck, UH
Christine Haman, UH	Rick Saylor, NOAA
Thomas Ho, Lamar	Robert Talbot, UH
HyunCheol Kim, NOAA	William Vizquete, UNC
Barry Lefer, UH	

When: Tuesday, April 19th, 2011 from 8:30a.m. to 5:00p.m.

Location: Hilton University of Houston Hotel
Shamrock Room
4800 Calhoun Road
Houston, TX 77204
