Farm Intern for Spring Semester

Moonflower Farms
3805 Fuqua St, Houston, TX 77047
https://www.moonflowerfarms.com/

We are growers and researchers changing the way farming is done through our sustainable urban farm. At Moonflower Farms, we are using space age technology to solve real world problems. We provide our communities year-round access to safe, high-quality produce with as little environmental impact as possible. We believe that hydroponics and sustainable city farming are the future.

Our innovative startup is looking to bring on an intern with an interest in Hydroponic farming. This internship offers exciting hands-on experience and the chance to gain experience and diverse skills in sustainable agriculture. You will be working with the farm operations team under the direction of the Farm Operations Manager.

Responsibilities

- Assisting farm operations which can include seeding, harvesting, and transferring
- Learning to regulate Ph and EC (electrical conductivity)
- Help identify any nutrient deficiencies and pest management

Preferred Qualifications

- Undergraduate student currently enrolled in college/ university
- Interest in Hydroponics and innovative agriculture systems
- Self sufficient, communicative, and excellent interpersonal skills
- Ability to work independently and with a team
- Availability for a minimum of 15 hours, ideally 3 days per week

Benefits

- Academic credits
- Flexible Schedule

Reliable transportation is a must.

Marketing/ Social Media Intern for Spring Semester

Moonflower Farms
3805 Fuqua St, Houston, TX 77047
https://www.moonflowerfarms.com/

We are growers and researchers changing the way farming is done through our sustainable urban farm. At Moonflower Farms, we are using space age technology to solve real world problems. We provide our communities year-round access to safe, high-quality produce with as little environmental impact as possible. We believe that hydroponics and sustainable city farming are the future.

Our innovative startup is looking to bring on an intern with strong knowledge and understanding of the digital media landscape, including various social media platforms in addition to working with our event planning team. The internship offers exciting hands-on experience and the chance to gain new skills as you will also get the opportunity to learn about hydroponics and our farm operations.

Responsibilities
- Assist with management and marketing of social media accounts
- Create and analyze digital content for various social media platforms such as Facebook, Instagram, and TikTok
- Support the event planning team by assisting with events management, execution, communication, and design
- This role with report to the Office Manager

Preferred Qualifications
- Undergraduate student currently enrolled in college/ university
- Well organized, communicative, and excellent interpersonal skills
- Ability to work independently and with a team
- Photography/videography experience (Having a camera is a plus!)
- Availability for a minimum of 15 hours, ideally 3 days per week

Benefits
- Academic credits
- Flexible Schedule

Reliable transportation is a must.
