Senior Vice Chancellor for Academic Affairs, UH System
Senior Vice President for Academic Affairs and Provost, UH

Strategies for Student Success

Timely Completion Pathways

With UHin4 and Houston GPS, students are able to not only transfer pathways from other Houston GPS institutions to UH, but also receive guided academic maps to plan a timely graduation.

Informed Choice Major and Career Information

By exploring major choice, job market information, and job risk analysis, programs such as Exploratory Studies, Student Success Collaborative, and My Majors focus on choosing majors that fit the needs of the student and provide opportunities for a successful career.

Proactive Advising

Utilizing proactive advising, we identify students who need assistance before they contact their advisor. Programs like Grab the Grads, Cohort Retention Outreach, Student Success Collaborative, and UHin4 help identify and address barriers to enrollment while ensuring students remain on track to graduate.

Financial Support and Incentives

Through the Provost Completion Grant Program, students receive financial resources to complete their degree. And the UHin4 four-year fixed tuition program helps students plan and prepare for college while guaranteeing that tuition won't rise for four years.

Academic Support

THECB Minority Male Initiatives Grant provides academic support for minority males in STEM majors who are not in good academic standing. This support supplements student learning and encourages timely graduation.

High Impact Engagement Opportunities

Encouraging students to connect with their peers in non-academic settings leads to high impact engagement opportunities. Programs such as Cub Camp and the Provost Summer Read Program allow students to foster connections across common ground.

Proactive Advising

What is Proactive Advising?

Early warning systems effectively monitor student progress and meet the needs of individual students through targeted interventions.

How are we implementing Proactive Advising?

A Student Risk Management Model guides the delivery of customized student support with an outcomes focus.

Student Risk Management

1. Risk Stratification

Identify groups of students based on risk of noncompletion.
