

FY24

Research Expenditures and Proposal Activities

— In this Report

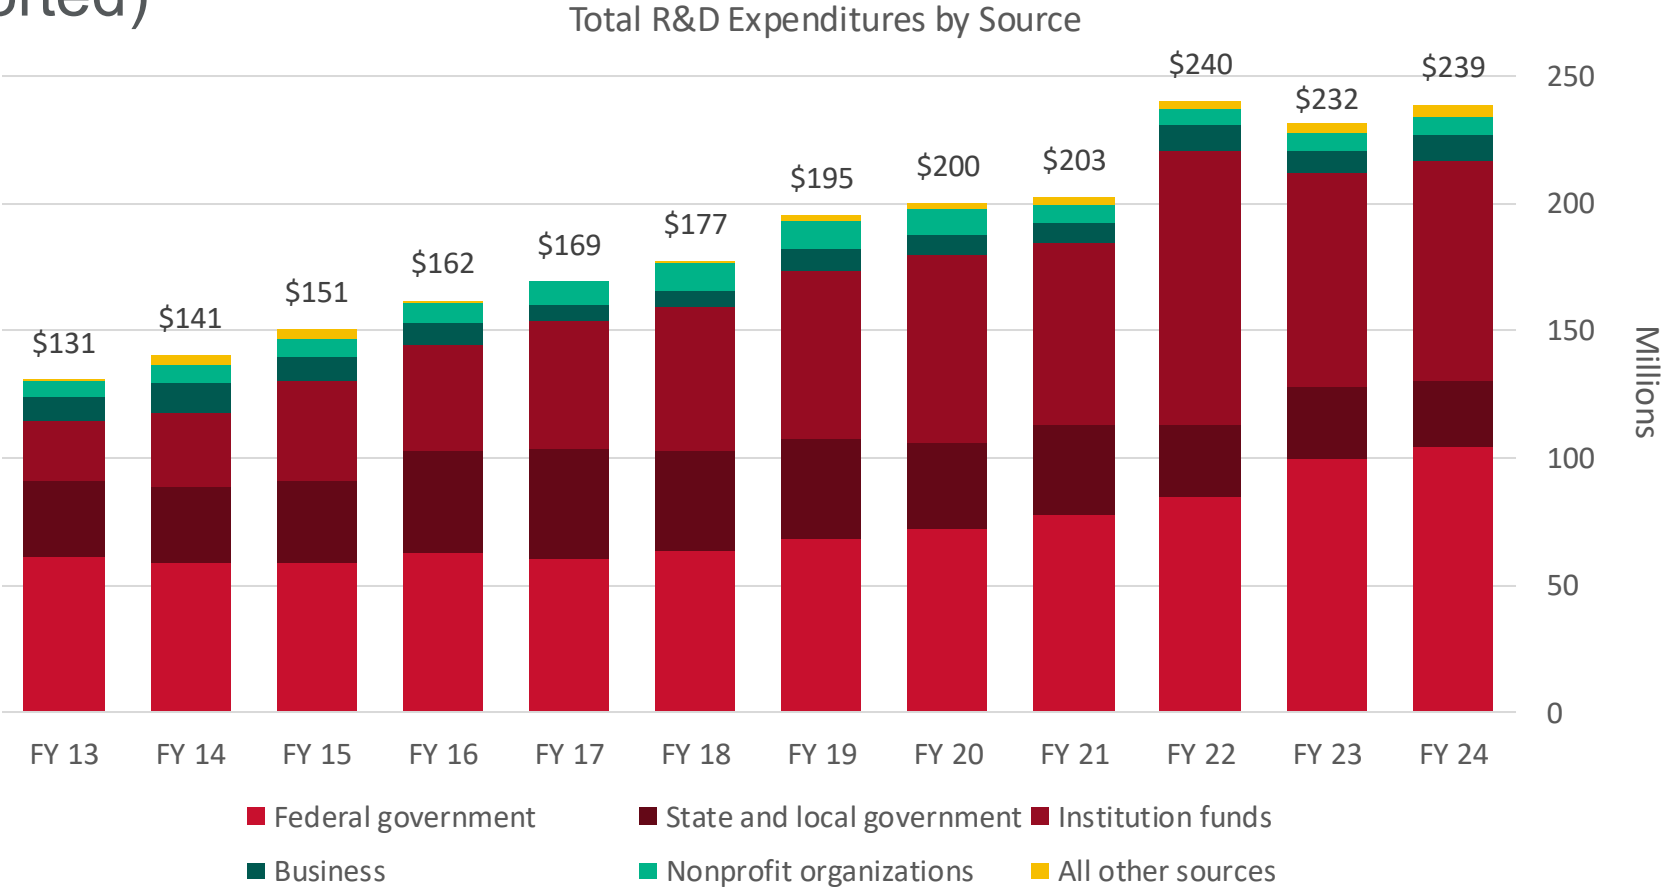

This report displays data reported to the National Science Foundation for the fiscal year 2024 Higher Education Research and Development Survey (NSF HERD). The HERD Survey is an annual data collection initiative conducted by the National Center for Science and Engineering Statistics (NCSES) within the NSF. It serves as the primary source of information on separately accounted-for research and development (R&D) expenditures at higher education institutions in the United States and its outlying areas, covering over 900 universities and colleges each year.

Faculty data is pulled from the UH [By The Numbers](#) data dashboard provided by the Office of the Provost.

Total Research Expenditures

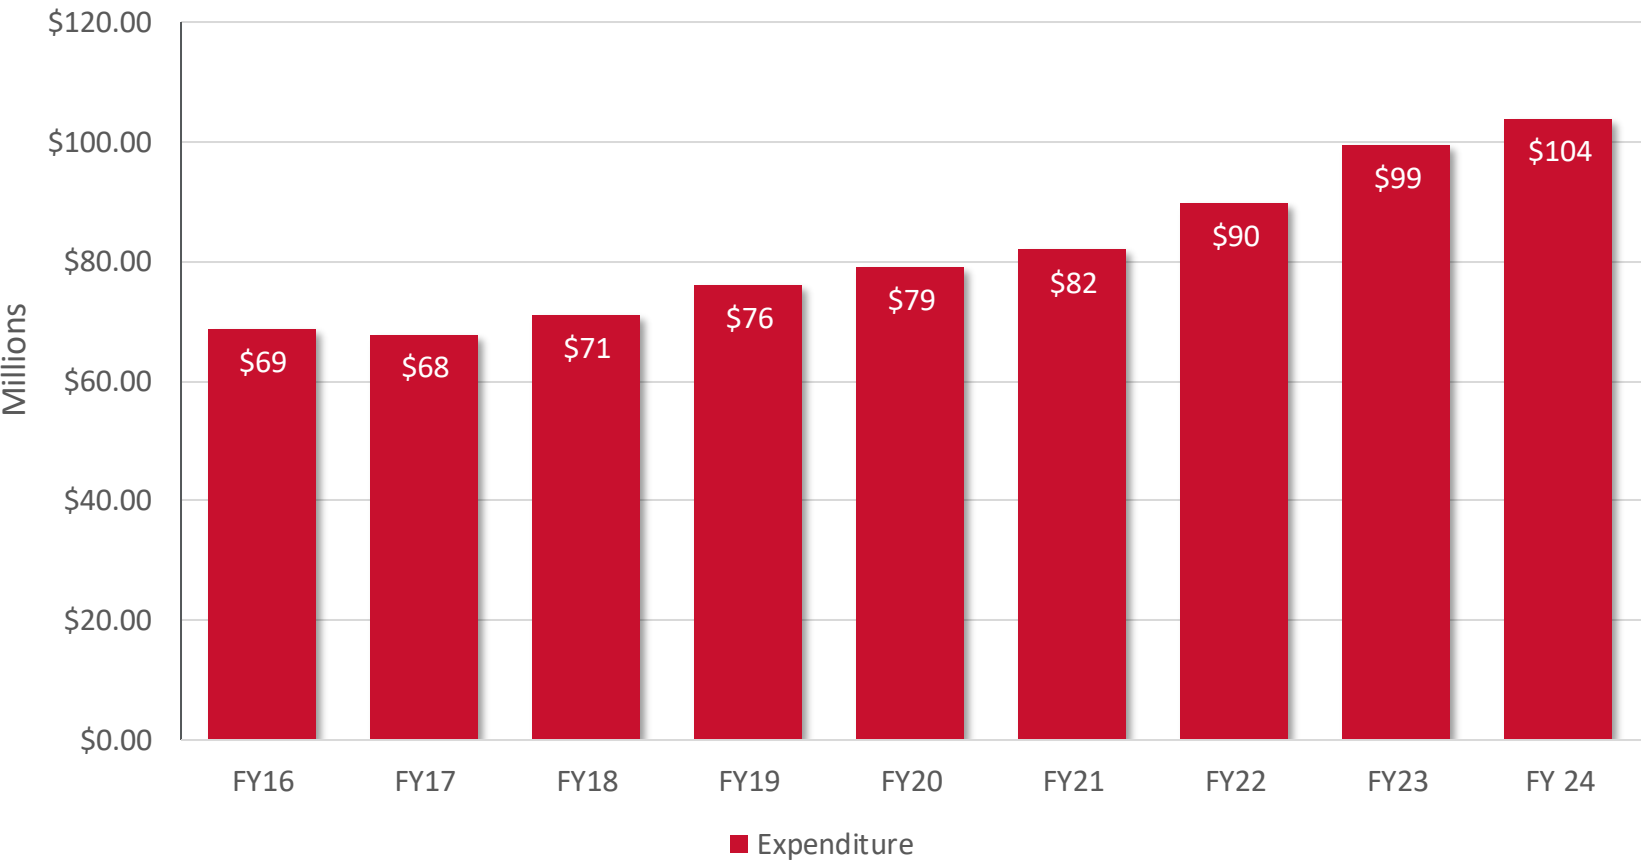

(NSF-Reported)

Annual research spending across all funding sources.

— Federal Research Expenditures

Annual research spending funded by federal government sources.

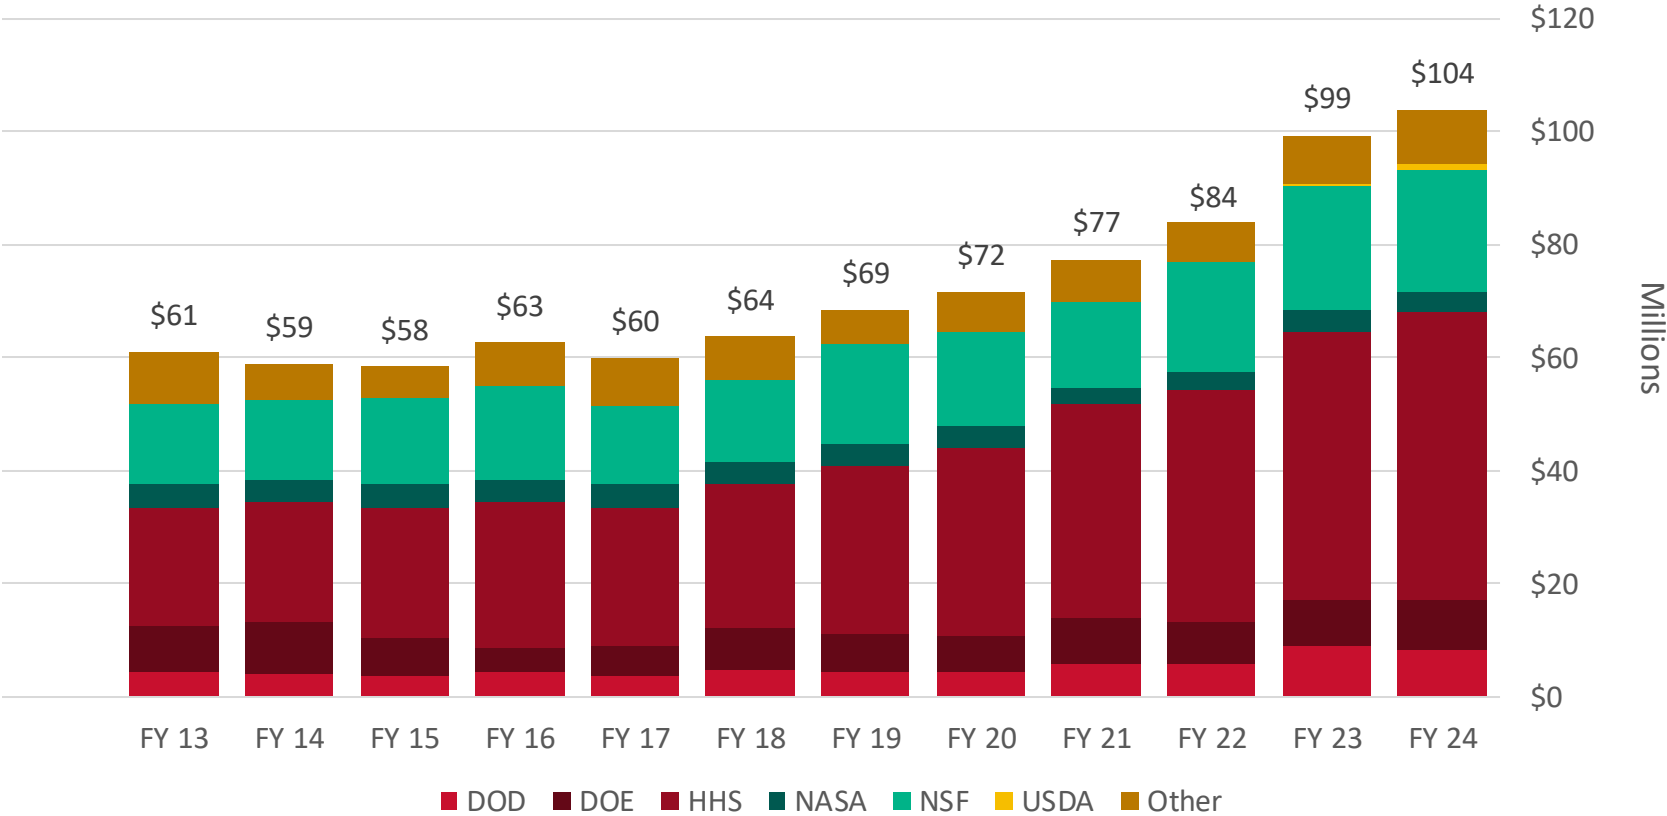

**Includes OSA.*

Federal Research Expenditures

(NSF-Reported)

Federal R&D Expenditures by Agency

Annual research spending funded by federal government sources.

Sponsored Research Expenditures

Annual research spending from external funding sources.

Sponsored Research Expenditures

(Sources*)

Annual research spending from external funding sources.

**Based on DOR classification at award setup.*

— Total Funds Requested

— Total Projected Award Amount

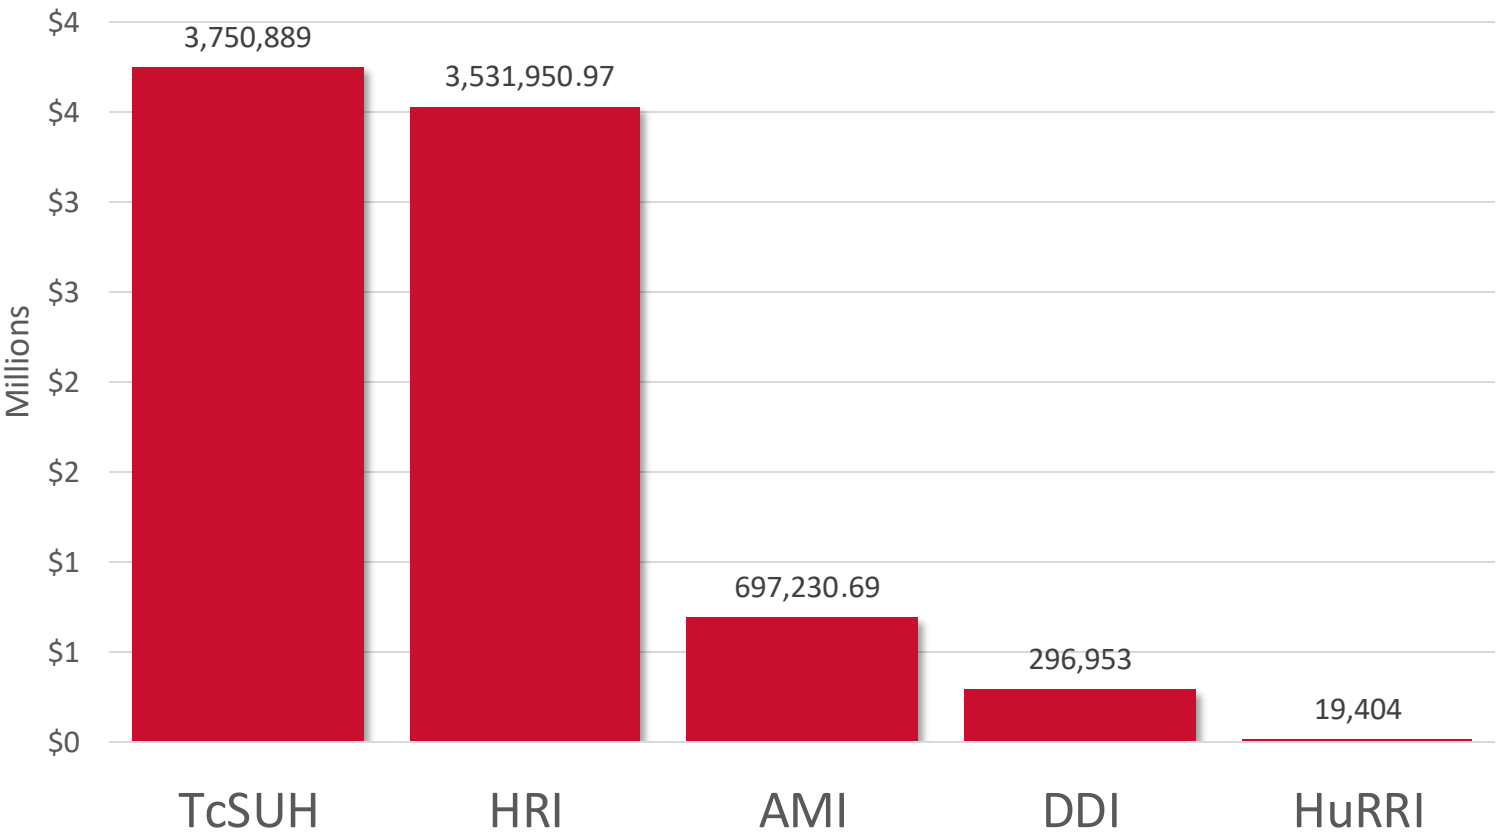

— Proposal Success

TO SERVE

the research community, grad students, keeping us compliant, satisfying client requirements, protecting our intellectual and financial interests

TO LEAD

managing the conversations, institutional research priorities, leading the implementation, supporting the broader view of individual and small-group research
