An SGA Bill to streamline SGA appointments to University Committees

Whereas, Senate meetings have previously run well past projected time due to confusion about the appointment procedure;

Whereas, the time of the senate is incredibly valued, and

Whereas, an efficient Senate is an effective Senate, therefore

Whereas, the Senate must make informed decisions

Whereas, IA committee has too much to do to interview all appointees

Whereas, we want SGA processes to be as easy and transparent as possible

Therefore be it enacted by the 49th Senate of the Student Government Association of the University of Houston that the following protocol is followed:

For all SGA appointments to University Committees, the appointer (President or VP) provides the entire senate with the appointee's application and resume as well as a description of the relevant Committee's jurisdiction, and

For SFAC and AFB appointments, the Senate automatically interviews appointees, and

Appointees to other committees are interviewed by the senate only by senator request for an interview

Therefore be it further enacted by the 49th Senate of the Student Government Association of the University of Houston that this protocol be inserted into the SGA by-laws under:

Title 1 Article 7 Section 2 Clause 8

VETO
