HOUSTON

STUDENT GOVERNMENT ASSOCIATION

Label: UB-60003

Date introduced: September 13th, 2023

Author(s): Chair Ortega, Pres. Rizk

Sponsor(s): Speaker Pro-Temp. Kadi

Committee: Administration and Finance

Draft: Final Read

Microwave & Vending Options Expansion Act

Whereas, the student population at the University of Houston is made up of a majority of commuter students;

Whereas, there are many microwaves located around campus that students are unaware of outside of the Student Center North and South locations;

Whereas, the UH Go app serves as a central location for relevant campus directory information;

Whereas, many students bring meals from home to heat up on campus;

Whereas, increased access to all microwaves and vending machines on campus will decrease wait times for microwave and vending machine use in the Student Center North and South.

Therefore, be it enacted by the Senate of the Student Government Association of the University of Houston:

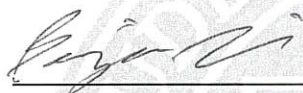

That icons for all vending machines and Canteen-provided microwaves across campus be implemented into the campus map feature on the UH Go app and UH website;

Be it further enacted, vending locations that have microwaves be added to the UH Go app by December 1st, 2023;

Be it further enacted, remaining vending machines be added to the UH campus map effective Spring of 2024;

Be it further enacted, a list of all buildings on campus that have microwaves available for student use be procured;

Be it further enacted, a plan be developed for key contacts for each college to provide microwaves in their respective buildings that are available for student use.
