Red* (journal title followed by an asterisk) indicates that this journal is listed in the *2024 Journal Citation Reports*® (JCR Published by Clarivate under the *Web of Science* Core Collection) within the category of “Social Work” with the data from the previous year. Journal Impact Factor data are displayed for journals in the Social Science Citation Index (SSCI) and the Science Citation Index (SCI).

Orange indicates a “social work” journal under the “Emerging Sources Citation Index” category.

Blue represents the JCR Journal Impact Factor (JIF), which is the mean citation rate per citable item (calculation: all citations to the journal in the current JCR year to items published in the previous two years, divided by the total number of scholarly items published in the journal in the previous two years.) A Journal Impact Factor of 1.0 means that, on average, the articles published one or two years ago have been cited once.

The Google search impact factor is also included, but some journals were not indexed under the JCR.

Purple represents the JCR Journal Citation Index (JCI), which is the average Category Normalized Citation Impact (CNCI) of citable items (articles and reviews) published by a journal over a recent three-year period. The average JCI in a category is 1. Journals with a JCI of 1.5 have 50% more citation impact than the average in that category.

Green represents the **h-index** (Hirsch index) ¹. For journal ranking use, the h-index is defined as the *h* number of articles in the journal that received at least *h* citations in the coverage years ².

“**Online Submission**” indicates that manuscripts may be (or must be) electronically submitted.
