We advocate for more hopeful solutions to the violence, powerlessness, and despair that plague many marginalized communities. The Case Manager will provide intensive, individualized case management to emerging adults (17-24) receiving services under the Transformative Justice model; individualized services include education or vocational training, mental health and/or substance use recovery services, assistance with housing and employment, and cognitive and behavioral interventions based on the Positive Behavior Interventions and Supports (PBIS) framework and other research and evidence-based strategies. The Case Manager will work closely with peer support staff, service providers, and LSJA staff to oversee the physical and mental wellness of participants to ensure they are supported and can achieve the best outcomes, including increasing the likelihood that they will remain free from justice-involvement. Working with all members of the Transformative Justice team, the Case Manager will collaborate to ensure adherence to the organizational values of authentic emerging adult engagement, building community, promoting racial equity, diversity, and inclusion, and employing strengths-based practices.</td>
