<tr>
<td><strong>Job Description</strong></td>
<td>Houston Neuroscience Brain Center is seeking a qualified and experienced Bilingual (English/Spanish) EMDR (Eye Movement Desensitization and Reprocessing) Therapist to join our dynamic mental health team. The ideal candidate will be fluent in Spanish and English and possess the necessary skills to provide EMDR therapy to individuals dealing with brain injury, trauma, and related mental health issues. The therapist would come in on Fridays and see clients. As the schedule builds up, more days could be added.</td>
</tr>
</tbody>
</table>

**Responsibilities:**

- Provide EMDR Therapy: Conduct EMDR assessments and develop treatment plans tailored to individual clients.
- Administer EMDR therapy sessions to clients, utilizing a trauma-informed approach.
- Monitor and assess clients' progress throughout the therapeutic process.
- Cultural Competence: Demonstrate cultural competence and sensitivity, particularly in understanding and addressing the unique needs of Spanish-speaking clients.
- Create a safe and inclusive therapeutic environment that respects cultural diversity.
- Communication:
  - Communicate effectively in Spanish, both orally and in writing, with clients and colleagues.
  - Collaborate with other mental health professionals to provide comprehensive care.
- Documentation: Maintain accurate and timely documentation of therapy sessions, assessments, and treatment plans in accordance with professional and ethical standards.
- Professional Development: Stay informed about current research, best practices, and advancements in EMDR therapy.
- Pursue ongoing professional development and training opportunities related to trauma and mental health.
- Collaboration: Collaborate with other members of the mental health team, including psychiatrists, psychologists, and social workers, to ensure coordinated and holistic care for clients.
- Adherence to Ethics and Standards: Adhere to ethical guidelines and standards set forth by relevant professional organizations (e.g., EMDRIA, APA) and state licensing boards.

Note: This job description is intended to provide a general overview of the position. It is not an exhaustive list of responsibilities, skills, qualifications, or working conditions associated with the role.
### Qualifications
- Master's or Doctoral degree in psychology, counseling, social work, or a related field.
- Current licensure as a therapist in the state of Texas.
- Certification in EMDR therapy from an accredited training program.
- **Fluency in Spanish and English**, with the ability to conduct therapy sessions in Spanish.
- Demonstrated experience in providing trauma-focused therapy, particularly using EMDR.
