For more information, call us: (713) 743-4799

Presentations:

- NASA
- UH College of Medicine
- UH College of Pharmacy

UNIVERSITY of
HOUSTON
STEM CENTER

STEM ZONE SATURDAY

STEM ZONE SATURDAY BUILDS

RELATIONSHIPS

Students develop peer relationships that nurture confidence and a sense of belonging

RIGOR

Students engage in authentic, hands-on inquiry based STEM activities

RELEVANCE

Students identify real world problems and explore innovative solutions

In the U.S., female, minority, and economically disadvantaged students are underrepresented in STEM majors and careers.

Factors that influence reduced engagement in STEM:

1. Few female and minority role models
2. Little real world application found in math and science courses
3. Low student research population

The University of Houston STEM Center welcomes middle and high school students to participate in STEM activities supported by undergraduate students, faculty, and STEM Industry professions.
