WHAT WE BUILD

RELATIONSHIPS

Students develop peer relationships that nurture confidence and a sense of belonging.

RIGOR

Students engage in authentic, hands-on inquiry based STEM activities.

RELEVANCE

Students identify real world problems and explore innovative solutions.

IN THE U.S.

Female, minority, and economically disadvantaged students are underrepresented in STEM majors and careers.

Factors that influence reduced engagement in STEM include:

1. Few female and minority role models
2. Little real world application found in math and science courses
3. Low student research population
