University of Houston

A. Butterfly Templates

Please print this page on letter-size paper at 100% scale.

B. Cutting Instructions

Materials.

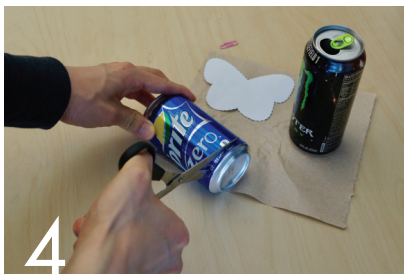

Aluminum Cans
Butterfly Template
Scissors
Paper Clip
Paper Towel
Carefulness

Wash and dry the aluminum can.

Cut a butterfly template.

Remove bottom of can first.
Make a hole at the bottom side and begin to cut out.

Caution:
Don't hurt your hand.

Cut toward the top.
Nutrition facts side is recommended.

Cut off the top.

7

Cut aluminum cans with the template.
Attach the template with a paper clip and cut along the edge.

8

Try a bigger can(473ml).
You can make two butterflies from large cans.

9

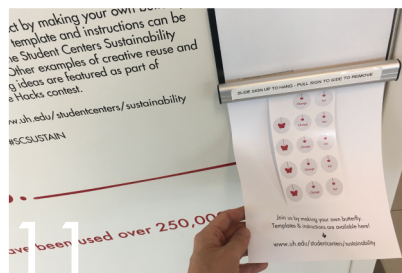

We have three butterflies!

C. Attaching Instructions

10

Bring your own butterflies to the Student Centers South Building #262.

11

Find a sticker at the room number plate.

12

Attach your butterflies to the installation's string with a sticker.
