A Parent's Guide: Getting Your Teen Ready for the SAT

START

Choose an SAT test date. Review upcoming test dates and registration deadlines online at sat.org. Register early to guarantee your child’s spot on that test date and get timely reminders leading up to the test.

4 MONTHS BEFORE TEST DAY

Sign up for Official SAT Practice at satpractice.org. Official SAT® Practice on Khan Academy® is FREE for all students and the best way to prepare for the SAT. Created by Khan Academy and the makers of the SAT, Official SAT Practice offers thousands of practice questions, video lessons, quizzes and tests, and more.

Link College Board and Khan Academy accounts for a personalized SAT study plan. When your child signs up for Official SAT Practice, make sure their Khan Academy account is linked with their College Board account. This sends your child’s PSAT™ 8/9, PSAT™ 10, PSAT/NMSQT®, or SAT scores to Khan Academy to create a customized SAT study plan. A child who doesn't have any test scores can take diagnostic quizzes to receive the study plan.

Download the Daily Practice for the SAT app. Accessible at Google Play and iTunes app stores, this free app gives your child a question a day to build skills on the go.
2–3 MONTHS BEFORE TEST DAY

Create a practice schedule on Official SAT Practice and stick to it. We recommend that students practice on satpractice.org 15–30 minutes per day 6–8 weeks before the test. A child who can’t practice every day should start earlier or practice more on certain days. Check out the new Coach Tools (khan.co/2yZGPh4) to learn how to be your child’s coach and monitor progress their on Official SAT Practice.

Take a full-length practice test. Taking a practice test on Official SAT Practice is a perfect way for students to see what their test day experience will be like.

2 WEEKS BEFORE TEST DAY

Take another full-length practice test. Two weeks before every SAT test date is known as Official SAT Practice Test Day. On this day, students registered for the SAT should take another full-length practice test at satpractice.org to check their progress. This lets students build self-assurance and see exactly where to focus over the next two weeks to get the best possible score.

Review test day requirements. Visit sat.org/takingthetest for SAT test day requirements to make sure your child has everything they need to be ready on test day.

1 DAY BEFORE TEST DAY

Plan ahead. Triple-check the night before that your child packs everything needed and knows how to get to the test location. See that your child gets a good night’s sleep.

ON TEST DAY

Relax and be confident. Encourage your child to eat a good breakfast, take it easy, and feel positive. Practice pays off!

AL PRINCIPIO

**Elegir fecha del examen del SAT.** Verifiquen en línea las fechas de los próximos exámenes y las fechas límite de inscripción en sat.org. Inscribirse pronto le garantiza a su hijo o hija un lugar en esa fecha y le permite recibir recordatorios oportunos antes del examen.

CUATRO MESES ANTES DEL DÍA DEL EXAMEN

**Inscribirse en la Práctica oficial del SAT en satpractice.org.** La Práctica oficial del SAT® en Khan Academy® es GRATUITA para todos los estudiantes y es la mejor manera de prepararse para el SAT. Creada por Khan Academy y quienes hacen el SAT, la Práctica oficial del SAT ofrece miles de preguntas de práctica, lecciones de video, pruebas y exámenes, y mucho más.

**Vincular las cuentas de College Board y Khan Academy para recibir un plan de estudios personalizado del SAT.** Cuando su hijo se inscriba en la Práctica oficial del SAT, debe asegurarse de que su cuenta de Khan Academy está vinculada con su cuenta del College Board. Esto envía a Khan Academy los resultados que obtenga su hijo en los exámenes de PSAT™ 8/9, PSAT™ 10, PSAT/NMSQT® o de SAT para crear un plan de estudios personalizado para el SAT. Quienes no tengan los resultados de los exámenes pueden realizar pruebas de diagnóstico para recibir el plan de estudios.

**Descargar la aplicación de la Práctica diaria para el SAT.** Esta aplicación gratuita, accesible en Google Play y las tiendas de aplicaciones de iTunes, le hace llegar a su hijo una pregunta al día para desarrollar destrezas sobre la marcha.
DOS O TRES MESES ANTES DEL DÍA DEL EXAMEN

Crear un programa de prácticas en la Práctica oficial del SAT y apegarse a él. Recomendamos que los estudiantes practiquen en satpractice.org de 15 a 30 minutos cada día durante 6 a 8 semanas antes del examen. Quienes no puedan practicar diariamente deberían comenzar antes o practicar más en determinados días. Compruebe las nuevas herramientas Coach Tools (khan.co/2yZGPh4) para aprender cómo convertirse en el coach de su hijo y supervisar su progreso en la Práctica oficial del SAT.

Hacer un examen de práctica completo. Hacer un examen de práctica en la Práctica oficial del SAT es una manera perfecta de que los estudiantes conozcan cómo será la experiencia el día de su examen.

DOS SEMANAS ANTES DEL DÍA DEL EXAMEN

Hacer otro examen de práctica completo. Dos semanas antes de cada fecha de examen del SAT es el Día de examen de la Práctica oficial del SAT. Ese día, los estudiantes registrados para el SAT deberían hacer otro examen de práctica completo en satpractice.org para verificar su progreso. Esto les permitirá desarrollar confianza en sí mismos y saber exactamente en qué enfocarse durante las dos semanas siguientes para obtener los mejores resultados posibles.

Repasar los requisitos del día del examen. Visite sat.org/takingthetext para consultar los requisitos del día del examen del SAT y asegurarse de que su hijo tiene todo lo que necesita para hacerlo.

UN DÍA ANTES DEL EXAMEN

Planificar con antelación. La noche anterior verifique tres veces que su hijo empaque todo lo que necesita y que sabe cómo llegar al lugar del examen. Asegúrese de que duerma bien.

EL DÍA DEL EXAMEN

Relajarse y tener confianza. Anime a su hijo a que desayune bien, se relaje y se sienta optimista. ¡La práctica tiene recompensas!

College-bound student-athletes cannot practice, receive athletics scholarships or compete during their first year of enrollment at an NCAA Division I school.
Test Scores

When a student registers for the SAT or ACT, he or she can use the NCAA Eligibility Center code of 9999 so his or her scores are sent directly to the NCAA Eligibility Center from the testing agency. Test scores on transcripts will **NOT** be used in his or her academic certification.

A combined SAT score is calculated by adding reading and math subscores. An ACT sum score is calculated by adding English, math, reading and science subscores. A student may take the SAT or ACT an unlimited number of times before he or she enrolls full time in college. If a student takes either test more than once, the best subscores from each test are used for the academic certification process.

If you took the SAT in March 2016 or after, and plan to attend an NCAA Division I college or university in the 2018-19 or 2019-20 academic years, use the following charts to understand the core-course GPA you need to meet NCAA Division I requirements.
