Every semester, students can choose one of four payment plan options for the payment of tuition and fees. It is the responsibility of the student ahead of each semester to log into their student account and indicate which payment plan they would like to use; additionally, students should be aware of the various due dates for their plan they sign up for. A student will remain enrolled through a term as long with an outstanding balance only in the event they are a part of one of these plans. Please note that the University of Houston does not have payment plans for past due balances.
