erbranch@central.uh.edu

Effective Fall 2006, under "Directory Information" in the Undergraduate and Graduate Catalogs, "and honors" will be added to "degrees and awards" as an information item that UH can release without student consent. This addition enables the university to release non-need based scholarship award info unless students "opt out" of releasing any directory information. Students will still need to "opt in" to have their need-based scholarship information released.

We also removed a redundant item. Entire directory information listing follows. Let me know if you have questions, please.

Directory information , effective Fall 2006

- Name
- Address
- Telephone number
- Major and minor fields of study
