## Home: UCC's Mission

Welcome to the University Coordinating Commission website.

The UCC has been created to coordinate and expedite communications amongst faculty, staff, students, and the University's administration in regard to the processes involved with policy and procedures development at the University of Houston.

The UCC will not create policy, but rather will serve to facilitate discussion amongst existing policy-forming groups. The UCC will seek to foster stronger connections between all governance groups; facilitate needed input into the development of policies and procedures; and help to broaden campus governance, making it a more transparent process to all potentially-affected parties.
