CBM003 ADD/CHANGE FORM

1. Department: CHE ENG  College: ENGR
   Core Category: \textit{Effective Fall 2008}

2. Person Submitting Form: Dr. Michael P. Harold  Telephone: 34307

3. Course Information on New/Revised course:
   - Instructional Area / Course Number / Long Course Title:
     PETR / 3313 / Reservoir Fluids
   - Instructional Area / Course Number / Short Course Title (30 characters max.):
     PETR / 3313 / RESERVOIR FLUIDS
   - SCH: 3.00   Level: JR   CIP Code: 14.2501.00   Lect Hrs: 3   Lab Hrs: 0

4. Justification for adding/changing course: \textit{To provide for new discipline areas}

5. Was the proposed/revised course previously offered as a special topics course?  \textit{No}
   If Yes, please complete:
   - Instructional Area / Course Number / Long Course Title:
     \textit{____} / \textit{____} / \textit{____}
   - Content ID: \textit{____}   Start Date (yyyy3): \textit{____}

6. Authorized Degree Program(s): B.S. Petroleum Engineering
   - Does this course affect major/minor requirements in the College/Department?  \textit{Yes}
   - Does this course affect major/minor requirements in other Colleges/Departments?  \textit{No}
   - Are special fees attached to this course?  \textit{No}
   - Can the course be repeated for credit?  \textit{Yes}

7. Grade Option: \textit{Lec} / \textit{Lab} / \textit{Pr} (Note: Lect/Lab info. must match item 3, above.)

8. If this form involves a change to an existing course, please obtain the following information from the course inventory: Instructional Area / Course Number / Long Course Title
   \textit{____} / \textit{____} / \textit{____}
   - Start Date (yyyy3): \textit{____}   Content I.D.: \textit{____}

9. Proposed Catalog Description: (If there are no prerequisites, type in "none").
   Cr: 3. (3-0).  Prerequisites: CHEM 1372, MATH 3321, MECE 2334, PHYS 1322, PETR 2311.
   Corequisites: PETR 3211, PETR 9315.  Description (30 words max.): Evaluation and correlation of physical properties of reservoir fluids. Course includes laboratory evaluation.

10. Dean's Signature: \textit{[Redacted]}  Date: \textit{3/6/08}

Print/Type Name: Joseph Tedesco, Dean

1. **Course Title:** Reservoir Fluids  
   Print course inventory screen using RARCAS/CATM and attach.

2. **Pre-requisite/Co-requisite:** CHEM 1372, MATH 3321, MBECE 2334, PHYS 1322 and PETR 2311. Co-requisites: PETR 3211, PETR 3315, & PETR 3321.

3. **Rational for Course Format:** Standard university format

4. **Rational for Course Content:** Prepare students for more advanced topics in petroleum engineering

5. **ABET Constituents consulted:** Petroleum Engineering Advisory Board, several industry focus groups

**State Course Outcomes:** This course teaches the student the fundamentals of determination and evaluation of petroleum fluid properties, as well as the mathematical tools for the analysis and interpretation of data.

6. **Course Performance after implementing format and content changes:**

7. **Is course required?**  
   - X Yes
   - □ No

8. **Required course outline attached?**  
   - X Yes
   - □ No

9. **Estimated student demand** 50 per semester

10. **Similar courses in other departments:**  
    - □ Yes
    - X No
    - a. **If yes, list course(s):**

11. **Is course part of a sequence?**  
    - X Yes
    - □ No
    - a. **If Yes, identify the sequence and comment on the relation to prior and subsequent courses:** Simultaneous with Petroleum Engineering Lab (PETR 3211)

12. **Textbook(s) and other required materials:** The Properties of Petroleum Fluids, 2nd ed. McCain, W. D., Penn Well Publishing Co, Tulsa, OK, 1990

   **Note:** Special Fees: If special fees requested, Course Related Fee Request Form will be required.

---

1 Department reports will be requested about the effects of your new course on your curriculum both 12 and 24 months after the effective date for this new course.
PETR 3313: Reservoir Fluids  
Credits (3)

Course description: Evaluation and correlation of physical properties of reservoir fluids.  
Course includes laboratory evaluations.

Pre-requisites: CHEM 1372, MATH 3321, MECE 2334, PHYS 1322 and PETR 2311. Co- 
requisites: PETR 3211, PETR 3315, & PETR 3321.

Publishing Co., Tulsa OK, 1990

Course Objectives. By completing this course the student will learn:
1. phase behavior of multi-component hydrocarbon mixtures, how these change with 
   composition, pressure, temperature and various mixtures with saline formation 
   waters.
2. determine properties of fluids used in reservoir engineering.
3. perform gas-liquid equilibria calculations using K-factors and apply these results 
   to separator test conditions.

Course Schedule

<table>
<thead>
<tr>
<th>Topics</th>
<th>Hrs</th>
