Re: Deactivation of Unused Major Codes

In a review of the current inventory of Active majors for the College of Technology, it was discovered that we have a few active major codes that do not have active degree plans. In an effort to clean up the tables and prevent students from being placed in the major codes in error, I propose we inactivate these majors.

The list of major codes recommended for inactivation:

HDFST1BS- This one has a last valid term of Sp 2003

HECTEBA- BA degree, last valid term Sum 2000

MIDBS- This one has a last valid term of Sp 2003

TELSOBS- was created when we discontinued BSTCH degrees, has never had a degree plan

TELSOBSP- was created when we discontinued BSTCH degrees, has never had a degree plan

ELCDEU- developmental major, last valid term SU 1991
