

UCC 0040 08S

To Graduate and Professional Studies Council

From Graduate Policy Subcommittee

Re GPSC 5798 07F: UCC Request that Council review Net Income Distribution from Intellectual Properties

Date Oct 17, 2007

RECEIVED FEB 01 2008

The Graduate Policy Subcommittee recommends disapproval of GPSC 5798 07F Net Income Distribution from Intellectual Properties. The Graduate Council membership felt that the 2004 distribution recommendation was more appropriate than the revised policy. In particular members felt that colleges and departments deserved distribution before the Office of Intellectual Property. In general the council felt the administration should base fund this office, and that a 40% allocation to the office, along with 40% to the Creators, 13% to the academic department or research center was an appropriate distribution model. Some members of the committee believe that any changes in this proposed distribution should result in another request through the appropriate governance committees.
