Proposal for the use of 5000-level courses:

The proposal:

- 1000-4000 level courses = UGRD
- 5000-level courses = fifth-year UGRD courses for five-year and 3/2 programs
 - List all 5000-level courses as UGRD in the course catalog and both graduate and undergraduate catalogs
 - This means that UC (not GPSC) will have to review all of these courses in the future
 - Leveling courses (for entry into graduate programs) that are intended to serve as UGRD courses will have a 5000-level course number
- Leveling courses offered for graduate and professional credit that have previously been 5000-level courses need to be changed to 6000-level or higher
 - If the course is intended to serve graduate students exclusively or primarily, then a CBM003 form cross-listing the 5000-level course as a 6000-level course needs to be sent to GPS for review
 - These courses must have a graduate component (per SACS) and will earn Graduate credit
- 6000-8000 level courses = GRAD.
