Response to UCC 0177 11S

Response to UCC 0177: Electronic Dissertation and Thesis Requirement:

After reviewing the provided information from the Graduate and Professional Studies Council, we agree with the recommendation to have all dissertations submitted electronically. This will tremendously help in our sustainability efforts. This move (as stated in the documents provided) will also make the dissertations more accessible, which will essentially create endless possibilities in scholarly research.

I apologize for the delayed response,

Michael Harding
University of Houston
Student Body President
