**To:** Charlson, Elaine  
**Cc:** DeFranco, Agnes L; Hugetz, Edward T  
**Subject:** RE: Policy Revision for Review

Dr. Charlson, Agnes, Ed,

Unless I'm reading this incorrectly, I don't think that's what we meant. The new requirements are that students must meet the general university admission requirements or the major's requirements, whichever is higher.

Thanks,  
Steve

Dr. Charlson,

I'm submitting our response on behalf of Dean Tedesco. If you have any questions, please let me know.

Thanks, Kitty

### Engineering Response

We assume that the Office of Admissions means, "Admissible to the major of student's choice, **unless that major has a higher admission requirement**" in part ii of Phase I and in part iii of Phase II. Please ask Djuana Young to make that change. Otherwise, the policy revision is not controversial for our College. We have wanted the university general admissions requirements to go up for some time now.

**Subject:** Policy Revision for Review

Deans:

Attached for your review and comment please find a policy that includes proposed changes to the Transfer Admissions Requirement. I would appreciate it if I could have any comments that you would like to make by May 25.

Thanks,  
Elaine
