**CORE 1101: College Success is a one-hour, graded course that is
only offered to Exploratory Studies students!**

The curriculum provides first-year students with opportunities to develop skills, behaviors and attitudes seen in successful scholars, including learning and study strategies, communication, time-management, and career and major exploration, as well as connection to UH campus culture and resources.

Course sections are small, staffed by instructors from academic and support offices across campus, and are assisted/mentored by an undergraduate Peer Assistant.

All sections meet through live video online in UH Microsoft Teams.

All sections are "online synchronous." Attendance is required.

The curriculum is the same in all sections. Weekly classes are 50 minutes long.
