

Survey for QEP Research-Enhanced Courses

I. Research Learning Outcomes

Please rate how this course has contributed to your improvement in the following skills:

1. your ability to “formulate a research question or problem.”
2. your ability to “identify basic principles and knowledge related to their research question or problem.”
3. your ability to “develop a research plan or address or resolve a specific question or problem.”
4. your ability to “collect and interpret data and information in an attempt to resolve the question or problem.”
5. your “awareness of the responsible conduct of research.”
6. your ability to “articulate your research findings through written assignments, performances, and/or oral presentations.”

II. Learning Engagement / Interaction

1. The activities/assignments in this class engaged me in the learning process.
2. The activities/assignments in this class helped me improve my understanding of the content knowledge.
3. My interest in research has increased due to the activities/assignments in this class.
4. I was motivated to do more than the minimum requirements in this class.
5. The feedback from the instructor/TA on assignments and exams helped me better understand the content knowledge.
6. I worked on a paper or project that required integrating ideas or information from various sources.
7. I put together ideas or concepts from my other courses when completing assignments or during class discussions.
8. I interacted with the instructor/TA outside the class about course-related work.
9. During this course, how much has your coursework emphasized the following mental activities?
 - i. **Memorizing** facts, ideas, or methods from your courses and readings so you can repeat them in pretty much the same form.
 - ii. **Analyzing** the basic elements of an idea, experiences, or theory, such as examining a particular case or situation in depth and considering its components.
 - iii. **Synthesizing** and organizing ideas, information, or experiences into new, more complex interpretations and relationships.
 - iv. **Making judgments** about the value of information, arguments, or methods, such as examining how others gathered and interpreted data and assessing the soundness of their conclusions.
 - v. **Applying** theories or concepts to practical problems or in new situations.

1. The most useful thing I learned in this course was ...
2. The thing I will remember most from this course is ...
3. What did you like the least about this course?
4. What improvements, if any, would you suggest?
