

Student Research Showcase for UH System Board of Regents

FOCUS

No. 1, Spring 2008 | Office of Undergraduate Discovery Programs | University of Houston

Students and recent graduates participated in a *Student Research Showcase* on February 21, 2008. The Showcase was organized in conjunction with the presentation of the QEP to the UH System Board of Regents by Provost Donald J. Foss. Nine research projects and three capstone projects were featured. Several of the students selected to participate in the Showcase were undergraduate research fellows from the Summer Undergraduate Research Fellowship (SURF) and the Provost's Undergraduate Scholarship Program (PURS) programs. Showcase participants included:

Research Projects

Christiana Chang, Mechanical Engineering
Lindsey Gaidousek, Chemistry
Derek Goodwin, History
Meghan Hendley, Music
Kevin Ivers, Biomedical Engineering
Mubeen Khumawala, Finance
Philip Loya, Chemical Engineering
Jana McCloskey, Accounting
Laura Zavala, Psychology

Capstone Projects

Rafael Gijon, Computer Engineering Technology
Matthew Moreno, Computer Engineering Technology
Amador Salazar, Computer Engineering Technology
Rebecca Gordon, Consumer Sci. & Merchandising
Yusra Saifuddin, Architecture

Regents Calvin Stephens, Denis Golden, and Christopher Sharpe learn about a senior capstone design project from Matthew Moreno.

Team members, Rafael Gijon, Matthew Moreno, and Amador Salazar, demonstrate the "Active Vehicle Water Level Monitoring System" to President Khator.
